Transportation consultancy (ETC & Associates, LLC) launched by industry executives

Three former Fortune 500 executives established ETC & Associates, LLC, in Pittsburgh, Pa., to aid less than truckload, truckload and small package transportation and logistics companies. Each executive is an expert in their respective fields. (David Gerschultz – operations, Ivan Hofmann – strategic planning and management development and Ronald Trombetta – accounting and finance)

In the current economic slowdown with high gas and diesel prices, ETC & Associates, LLC can benefit their clients by providing executive level expertise and superior consulting services in business plan development, operational improvements, cost analysis, and labor relations to enhance efficiencies, profitability and growth.

For further information about ETC & Associates, LLC., visit the web site for ETC & Associates, LLC. at etcandassociates.com or call (412) 877-9010.
